

Masking

DESCRIPTION

SaatiPrint Masking Film is a high quality film available in both ruby-red and orange-amber colors. Made to our exact specifications, there are no finer films made. Our films are coated onto a clear stable polyester base of .003" and .005" thicknesses. Their medium tack makes the film easy to peel. The film will re-adhere to the carrier when required. SaatiPrint Masking Film is very forgiving if a mistake or over-cut is made.

AVAILABILITY

SaatiPrint Masking Film is available in the following roll sizes:

ROLL SIZES

PRODUCT DESCRIPTION	PRODUCT CODE
